USA

ELK HORN, IOWA

CELEBRATING DANISH ROOTS & AMERICAN DREAMS

The Museum of Danish America offers internships designed around academic program needs, individual interests, and ongoing museum projects. While here, interns are included in MoDA meetings and programs and are invited to explore American culture through visits to other communities, museums, conferences, and events. Our program becomes a deeper international experience because interns live and work together, which helps build lasting memories and friendships.

Internship project areas: museum collections management, graphic design, exhibit development, public relations/marketing, retail/sales, prairie park management, and more.
